Objective

Aspiring web developer completing B.Tech in CSE. Eager to apply HTML, CSS, and JavaScript skills in a hands-on role, contributing to a collaborative team and expanding practical web development experience.

Education

Kuppam Engineering College

01/20 – 05/24

B.Tech(CSE)- 73%

Vikas Junior College

04/17 - 03/19

Intermediate (MPC) - 89%

ZPH School, G.C.Palli

04/16 - 03/17

SSC - 83%

Projects

Stock Vision :

My final year academic project is a web application for stock price prediction. We developed a web app for stock price prediction using LSTM algorithms on Yahoo Finance data. The app preprocesses data, trains an LSTM model, and provides accurate forecasts for informed investment decisions. This project showcases skills in machine learning, data analysis, and web development.

E-commerce Food Delivery Website :

Created an e-commerce website using HTML, CSS, and Bootstrap. Ensured a user-friendly interface with responsive design for seamless browsing. Integrated Bootstrap components for enhanced functionality and a visually appealing online shopping experience.

ToDoList Website :

Created a ToDoList with HTML, CSS, Bootstrap, and JavaScript. Features a clean interface for easy task management, allowing users to add, edit, and remove tasks effortlessly.

Internship

Front-end Developer

- Responsibilities included designing and implementing user interfaces using HTML, CSS, and JavaScript.
 - Collaborated with team members to ensure seamless integration of front-end components with back-end systems.
-

Certifications
